WTB 924s chassis

Posted by cbuzzetti - 24 Mar 2018 15:47

Hey guys, I am looking for a 924s to repair a 924s racecar I recently acquired.

I am specifically looking for the front half of the car. Must have complete front bodywork and straight frame rails forward of the cross member.

Any roller or cheap runner will do. Must be on west coast.

Thanks!
