

Paddock parking at Infineon

Posted by 944Racer72 - 11 Mar 2010 13:34

Where do you guys park in the Paddock (and which paddock) at Infineon? I didn't see 944 Spec on the paddock maps.

Do they have power in the paddock?

Do you guys usually park trailers in the paddock with the cars? Or do you stash those away elsewhere?

The girlfriend is coming to camp out and hang out at the track. She's really looking forward to it.

At Infineon, they prefer open trailers to be parked up the hill in the trailer lot. If you have an enclosed trailer, then they don't mind. Parking is limited so most of us try to drop off our cars on Friday afternoon to get a spot. See you there.

Dang.

I've got an open trailer. I'll do my best to find something. I presume that parking my van in the paddock is okay, since I'm planning to sleep in it.

Hi Cameron,

Your van which is your support vehicle is O.K.

They'll allow either a trailer or support vehicle with your race car.

I usually park my open trailer in the upper parking lot.

We'll save space for you.
