

Sonoma Championship Recap and Video

Good racing all three days, great weather and good friends both old and new. The usual breakdowns were handled with the group pitching in with help and parts. Thanks to my enduro partner, Jim Hicks, for helping me change my broken spindle, caliper and brake line.

Thanks to Charlie and Laurie for hosting the group dinner Thursday. It was great. Ken Huey came up with a bunch of prizes for the entire group. Thanks Ken, that made being wrecked by the fool in the Miata a bit easier to take.

I had some good racing all three days with door to door action with Hicks on Friday, more door with Alberto in the red 44 through the S's Saturday and some rubbing and door to door with Atteberry through 10 on Sunday. Will post the video when I get time.

Glad Steve and Javier are OK after their tangle on Sunday.

I am posting my video of the Miata wrecking me as a what not to do reminder. How many times have we heard in the drivers meeting to "not race cars out of your class if they are racing each other". The clown in the Miata could of backed off and let us go but he has to try and race us. He misses his marks, goes off, comes back on, hits me, puts me into the tire wall, I spin then he doesn't get on his brakes and hits me again.

A pox on the Miata

Jim, wow, that was a Miata fail on many levels, and you got wrecked in spite of doing the right things. You saw it coming and gave him all the room you could. His abrupt inputs into the grass doomed the whole thing here. Especially frustrating, as he had no competitor close to him. I'm sorry that is how things worked out for you at Nationals.

Start of Saturday's race. Hicks and I go door to door into 7, Atteberry makes a nice pass on the inside.

Last video. Alberto and I battle it out during Saturday race. We go door to door through the S's and almost bang doors. Fun racing.
