

WSIR CCW

Posted by reflexr - 02 Jul 2016 11:22

Is there a reason we never run Williw Springs CCW?

I have been coming to this track since the 70s, and I have never seen it run CCW. Is there a reason?

I helped set up POC's enduro years ago and drove the track in reverse in my truck. The downhill exit of turn two would be a challenge

Personally, I think it would be a blast! A good alt config for the season. I have done it on a simulator only, and yeah, you come flying out of turn 8(T2CW) into 9. I wonder if this could be brought up to Ryan.

I would think the exit of (what we normally think of as) Turn 3 would be pretty challenging.

There are some motorcycle videos on you tube of it, looks hairy!
