

\$2000 for 2 project cars 1984-85 944's Pa, 17972

Posted by mikexxxx - 08 Jun 2015 15:17

(For some reason most pics wont download?) 2 stock cars, project or parts. Running Red 1984 Porsche 944 and a grey 1985 parts car. It is inspected & was on the road until having shifting problems a month ago. Have a great parts car with only 80,000 to go with it, do not have time to work on it, too many motorcycle projects. Has all the parts u would ever need, is a really nice parts car, only missing fuel injection. The running one had its compression tested, is solid motor. Has 103k on it. Just had timing belt and water pump done, starts right up. Some thing wrong with shifting linkage or trans though, hard getting into gear. Has no rust issues. Has a few dings, paint a bit faded, dash, console are perfect, front seats are cracked, back ones are great. Both cars have new tires all the way around. Red one has newer porsche extra wide wheels, grey one stock phone dial. \$2000 Mike 570-292-0162 Pa. 17972
