

WTB - 944 Spec SP1 or SP2

Posted by jrperkin67 - 20 Oct 2015 13:09

Looking for a race-ready 944 Spec SP1 or SP2 in the South Carolina/Georgia area. I race in NASA Time Trials now and plan to move to lighting races next year with the 944 Spec. Don't need a perfect car but would like one that has 1988 engine, along with expected upgrades so that it will be ready to go without a great deal of additional upgrades. Also, I'm willing to travel up to 300 miles but not willing to buy car sight unseen so no SoCal referrals please. Give me a shout or email at
