Hi there I started this project last year but I am getting more surgery for my shoulder so I need to sell the car I have. The head gasket has just been replaced. I stripped out the interior just needs a little bit of work with the roll cage. All that is left in the engine is the coolent lines to be installed. I can't finish it I just don't have the strength right now. I'm asking 1200 obo just to get it out of here.

Sorry the car is in Gardnerville nv just south of Reno where I moved recently. I just got out of surgery a few hours ago so I won't be home for a week now

Sorry to hear about your surgery. Do you have any pics available?
