1984 944 SP1/SPEC Racer Posted by sbeamish - 23 May 2009 00:40

Tach Mount

I have been slowing preparing this car as a 944 SPEC racer and have decided to move on to a 911.

More details about the car. I bought it 3 years ago and the previous owner had the timing belt, water pump, and all the front seals replaced. Car had 117K on it when I bought it and has been used only on the track since then. I will taking a bunch of pictures this week and posting them to my server, once that is completed III post a link.
