What size tank is in the car?

What kind and size seat is in the car?

When do the belts expire?

If seat and belts don't work for me, what would you be willing to sell for without them?

Any more shots available of undercarriage, trailer, trailer interior?

Will have to check on the fuel tank size, it is the steel one but I do not know the exact capacity at this time.

Seat Is an FIA composite 2008 Cobra Suzuka size is Extra Large this should fit anyone up to a 38" waist.

belts, interior net and window net are all new in 2010.

I will deduct \$300 for the seat if it will not fit you. That means I will keep the seat but leave the mounts in place. These seats can be bought online for as little as \$399.

I will post pics of trailer after I find out the fuel tank size.

Well i thought I could just pull the fuel tank info by using an online search but no luck so far.

It should be between 18 and 21 gallons. I will keep looking.

Here are some pics of the trailer.
