

944/951/968 Custom Gauge Panel - HVAC Area

Posted by GT944 - 30 Nov 2016 18:39

Hey All - as a long-time 944 Spec driver and racer, some good innovations have come up over the years. My brother and I have one we'd like to share: a custom-made gauge panel that replaces the central HVAC vents on the dashboard--putting three extra gauges at eye-level!

Comes with everything you need to install - mounting posts, screws, and instructions. Super easy!

\$150 at our eBay store (Trackside Innovation): www.ebay.com/itm/-/262742789125?
