

FS- 944 plastic tank with pump cover \$35

Posted by Kens_74_911s - 19 Jun 2017 09:04

Need to move this out good plastic fuel tank with 2 pc pump cover \$35 + FedEx at cost from NC 28387

Sorry no mounts .

I do have some check valve filler neck parts but I think they are same as the early cars.

Ken

I'll take the tank. Been gathering parts to do a conversion between metal and plastic tank, and the tank is all I need. I'll try to come out sometime soon to pick it up in person so you dont have to ship unless you find yourself over in the Fayetteville area sometime soon. I'll also take a starter and alternator if you know they are good. Do you want me to pay to hold them?

Alright , I just found some of the mounting straps, 3 of them. it could be two are from a early metal tank either way those are included.

I sold the Alternator but still have the Starter.

Sorry Ken, was busy over the week end racing at VIR. Please dont hold up a sale on my accord if you have buyers on those sites. I actually forgot I had bought a plastic tank a couple months ago and only now got it in the mail so Im good for now.
