

Lots of part car a& motor parts.

Posted by Sterling Doc - 02 Mar 2010 10:38

After parting 3 cars, I've have too many random parts around my garage. I've also taken apart a couple of motor for good blocks, so I have a lot of parts I need to get rid of. I also have a head that is being rebuilt, that I will not need. My plans have changed, but it's already in progress,

So if you need any of this stuff, let me know, I need to clean house!
