

7x15" ATS Cookie Cutters 911.361.023 in CT

Posted by Butzip - 09 Mar 2010 20:30

Hi all,

This is a matched set of ATS 'cookie cutter' wheels, date stamped Sept 83, early offset will fit all pre-1989 911s and pre-86 944. I just had them media blasted and self-etch primed, they are ready for paint. I considered finishing them but thought they may be more valuable to somebody who would like to color match to their car or want a specific finish. I've done the hard work and expense, you reap the benefit! These are perfect for concour restoration or great track wheels for your 911 or Spec 944!!

includes a set of black center caps.

Located in Suffield, CT asking \$300 + shipping or local pick-up for free:)
