

Fuel Distributor

Posted by PNM52 - 21 Mar 2011 13:42

I have a 1981 924 2.0 with a failed fuel distributor, can anyone tell me, can this system be upgraded or does anyone have parts to repair this? Any info will be helpful, perhaps another site? Paul Meier DeKalb II.

Also try [Rennlist's 924 forum](#) . We run the 924S which has more in common with the early 944 than it does the 924.
