

Announcement: RA-1 the SPEC tire for Nationals

Posted by Sterling Doc - 19 May 2011 13:55

Great news guys, I can now confirm that the RA-1 will be THE Spec tire for Nationals, and moving forward from there again. We're back home again!

This is especially encouraging, as my testing of the 205 SM6 Hoosier at last weekends enduro showed high tire temps, and poor life - just not enough tire for our cars. Larger Hoosiers work better, but cost a lot more.

I just saw the announcement that AI, & HC will be on Hoosiers only for Nationals. I would like to thanks the National Office for working with the flexibility they showed to meet our classes needs!
