

looking to buy a new project

Posted by wknd_warrior - 12 Jun 2011 17:34

So I am new here and I signed up because forums have helped me alot with my last project car and now I am selling it and looking for a 944. Since I am unfamiliar with problems that the 944 are prone too, I would love some idea of what to look out for when shopping. I know the basic problems for old cars but the specific problems would be great to know...
