April 2010 Firebird - Night Enduro - 1 hour race edited down to sho highlights.

May 2010 - PIR - Spec only race - Spec Boxster/944 spec/ Spec Miata

Not bad to see the 944's hanging on to the boxster.

More Videos

May 2010 - Inverted start qualifying race at PIR again.

May 2010 - May 944 feature race - 944's battling with a specboxster

Nov 2010 at PIR - This was pretty good race.. right up till the start of video #3.

Good start 3rd in class and finally got the chassis dialed into where I needed it.

Sadly the car I am battling was not only not inclass, but was the ONLY car in it class that day.

What to know what a 944 motor does at 9000 rpm...
