

## Weltmeister Sway Bar parts

Posted by JerryW - 03 May 2011 17:37

---

Hey guys - I managed to pick up a set of 28mm/22mm weltmeister adjustable swaybars but I need some parts.

First off the front bar was for a late car and I have an early car. Does anyone have the parts that mount on the control arm for an early car ?

Secondly I need the bushings for the rear 22mm bar.

If any can help I'd appreciate it.
