

Anyone interested in early custom harnesses?

Posted by many944s - 06 Jan 2009 05:18

Well, I'm finished with the harness for my project! I also measured all the lengths so I can make more if anyone is interested. This replaces the factory body harness for use in a spec car. It is wired for:

Brake lights

Fuel Pump

Tach

Oil pressure (both gauge and idiot light)

Engine temp

Radiator fans

windshield wipers

Engine Run & Start.

Main power

The entire harness weighs in at just under 1 pound.
