

roll bar padding

Posted by deadeyeb - 18 Mar 2009 05:30

what does everybody use for padding do you use the sfi rated or just the high density foam that is not rated.

I use the SFI stuff - It's not that expensive for the amount we need.

I use the SFI stuff for wherever there is a possibility that my head may come in contact with the cage, everywhere else I just used regular padding.
