Posted by Omn3d0n - 16 May 2009 10:25 How old can fiberglass seats be to be nasa legal? **Thanks** Sid Re:Age of Seat?
Posted by Sterling Doc - 16 May 2009 10:31 Sld, the only age restriction is that if it is FIA rated, and it's out-dated (more than 5 years), it needs a back brace. I'm not sure how comfortable I'd be with a fiberglass seat with a a seat brace. Any non-FIA rated seat needs a back brace. Re:Age of Seat?
Posted by Omn3d0n - 16 May 2009 10:34 Just so I understand. When would you used back brace?

My OMP pista seat came in and it was to small. I need

to find a larger seat. I found a 2006 pro racer recaro

xl for sale.

How much is the seat?
You can get a full containment seat from ButlerBuilt for about \$500. It is built to fit your body measurements and gives you shoulder support and a halo.
