

Final input on rules change proposals

Posted by Sterling Doc - 08 Nov 2012 11:11

OK, so we need to wrap up the rules change proposals wrapped up. While this is not a strictly democratic vote, it may influence the final decisions. As the other thread has gotten pretty muddy, I'd like just a straight up or down vote on the following proposals:

1) Allow external fabricated headlight covers to replace existing OEM covers. Cars with existing OEM cover would be allowed to fill in, cover or tape seams around the headlight cover for parity.

2) Allow external transmission coolers

3) Increase minimum weight to 2,700 lbs

If the wheel weight concern becomes a formal proposal today, we may vote on that as well.

1) No

2) Yes

3) No

1. Yes. I don't think it's necessary but not a big deal.

2. No. Too expensive and not in the spirit of our class as low budget and not needed at all.

3. No..

4. No, wait, what's the question?

1) Headlight covers - NO

2) Allow external transmission coolers - No

3) Increase minimum weight to 2,700 lbs - No - infact Double No

1) Headlight Covers - No

2) External Trans Coolers - Yes - Optional Reliability improvement

3) Increase Min Weight - NO, NO , NO (that is a triple no!)
