

Rule Change Requests for 2016

Posted by Sterling Doc - 12 Oct 2015 19:03

OK guys, time to hear out RCR's for next years rules. We'll keep this open through the end of the month, and then get the new rules, if any, hashed out.

As always, please bear in mind that rules changes need to be cost effective to existing cars, as well as new builds, and the burden of proof is on why the new rule is needed, not justifying the existing rule - rules stability is key here!

Stay tuned for a big announcement in about a week, as well!

I propose opening up the wheel allowance to include any wheel weighing more than 15 pounds in the stock offset consistent with every other Spec racing series around us.

BLUF: Cookie cutters are increasingly hard to find and average ~\$450 per set to get and usually need refreshing to look half way decent if they are usable at all. Racing on 35 year old wheels is not the best option and all other classes have a minimum weight open wheel rule with great success. New form flowed Jongbloed Racing wheels in a 15x7 stock offset and minimum weight of 15 pounds can be had for \$636.
