

944-Spec Dyno Day

Posted by Brian Evans - 18 Jan 2013 07:26

Does that K&N air filter and new exhaust really work? How close are you to the new HP cap?

Now is your chance to find out-

We are having a dyno day at 9:00 am on Saturday, January 26 at Balanced Performance in Sugar Hill, GA.

Balanced Performance has not only offered to open up the dyno on Saturday for us but is giving everyone 2 different options: one run of 3 pulls for \$50 or an hourly rate of \$100/hour. We will be getting both HP and A/F ratios.

This is a great opportunity to get baseline HP #'s and verify your AFR.

This is open the EVERYONE, street or race car, Porsche or not- if you have ever wanted to know how much HP your car makes bring it by and find out!

Contact me for details-

Brian

Great deal! Group dyno days are great to save cost, and get everyone together. Also, as they say "sunshine is the best disinfectant"; Good to keep all this public.

Good luck, and let me know how it goes - we are always collecting data!

Mike has a laundry list of mods to check out on the dyno- we should get a ton of data!
