

Atlanta Motorsports Park Race Series

Posted by Brian Evans - 22 Dec 2015 06:18

944-Spec has been invited by AMP to run in their Sunday race series along with Spec E30 and Spec Miata.

Their next 2 races are 1/17 and 2/21, for \$195 you get 2 warm up sessions, 2 quallys, and 2 races. You also get open track in between the sessions if you want (using point bys if there are non-racers out there).

I am planning on making the 1/17 race and maybe the 2/21 race- who else is interested?

Brian

Everything is set for the race this Sunday- for those of you who didn't get the email they run things pretty much like a regular NASA race there.

Not sure what the total car count will be but looks like 944-Spec will have 4-6 cars for the start of the unofficial "Bootlegger Series."

In the open track sessions between qualifying and racing passengers are allowed so if anyone want a ride feel free to stop by!
