

Winter Carnival 2017 - RRR - January 20-22

Posted by AgRacer - 04 Jan 2017 06:43

Time for the start of the Southeast Region schedule on one of our usual circuit tracks. Air will be cool making good power so there is a chance a track record could fall depending on track conditions. Last year it snowed/sleeted on Saturday morning so anything is possible down in Savannah in January.

Be sure to catch a look at the new rules before finishing up your off season prep! Not much has changed which will require changes to keep your car legal, but there are some new allowances which should be a welcome change to all of us.
