

Spring Brake 2017 - RRR - April 7-9

Posted by AgRacer - 21 Mar 2017 10:59

SpecE30 types are scheming to put together a 2nd race Sat afternoon at Roebing Road. The race would be unconventional, but would certainly include an inversion of the field. They might be doing t-shirts so will need some lead time re. who wants to participate and their t-shirt size. There will likely be an additional cost to participate, probably in the ballpark of \$75. The miata types will be included as well.
