

Lap times at Road Atlanta for 944 spec or E2

Posted by bnewport - 23 Sep 2009 22:54

We're planning on doing the 9 hour enduro at Road Atlanta in Dec but we're having trouble finding laptimes to get an idea of the track. Practising on iRacing of course but it doesn't have a 944 spec so I'm using a VW Jetta TDI which looks good for 1:41s or so (45s with me driving for now...)

I saw Mike Skeen did a 1:43.x in a spec E30 which is wicked fast and Michael Mad did a 1:53 I think. Anyone know what spec cars can do with 'normal', i.e. not Skeen drivers?

944 cup ran times in the 1:46 to 1:54 range. So I would expect something like that, but the best spec time at maybe 1:47 or 1:48.
