

## **Euro 944**

Posted by Steffeazy - 14 Jan 2013 09:54

---

There's a guy near the DFW area parting out a Euro 944. I know his pistons aren't legal for 944-Spec, but what about his transmission? I don't think he has pulled it from the car yet, so I don't know what the stamping says. I'm having trouble finding info on the euro tranny. I'm just curious if it is same as our 944 transmissions (legal for 944-Spec), or if it is like the 951 tranny.

Todd - Will do. I'm planning on going this Sunday if it warms up.

Yeah, I bought wheels from him last month. It's a shame on the Euro. I kept his number in my phone since I saw he had a few 944's and fair pricing. I was asking how much he wanted for an 84 engine when he told me he threw the belt on the Euro.

Does this guy have any transaxles? I need a good spare to build.

I'm sure he does. He has 3 or 4 944's there. You can find him on Craigslist. He's selling a lot of parts. He wants the buyer to pull some items, but you might be able to make a deal with him if you don't want to pull it.
