

More races in Texas

Posted by Car64 - 03 Dec 2016 09:05

Looks like NASA has 6 races this year in Texas. If we could get 5+ SP1s at the TWS race April 22-23 then we would have a fun race and attract more 944 racers to future events. It will take a few races with a critical mass of cars to get more Spec 944s entered in Texas. When that happens we will always have someone to race.

If the schedule does not conflict with PCA race weekends there could be better attendance.

Have the dates been published?
